VOLUME 53, NUMBER 3

SEPTEMBER-OCTOBER-NOVEMBER 2003

Message from the President / State of the Council Report

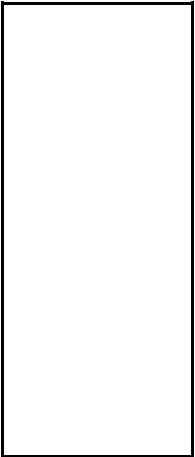

On behalf of the Board of Directors, I want to provide you with an update on the state of affairs for the Pittsburgh Council. As I reported in the last newsletter, the Board of Directors has been working diligently to secure the financial viability of the organization. Over the past two years our revenue has declined significantly as a result of an extremely weak travel economy. A key component of our efforts to address our financial shortfall were meetings with charitable foundation representatives concerning our fiscal needs and making the case for the importance of the continued presence of hostelling to the region. Subsequent to these meetings we were invited to submit funding requests this past Spring. Partly as a result of the difficult economic environment and the impact on their investments, the foundations declined to fund our proposal as well as most first time funding proposals. As a result, the Board has needed to make some strategic decisions. Until we are able to fully understand a fiscally responsible course of action, the Pittsburgh Hostel will be closing, hopefully only temporarily, on September 28, 2003. We are also forced to close the Hostel at Ohiopyle State Park.

With these changes, you may naturally be questioning what the future holds for the Pittsburgh Council. The Board remains committed to the mission of the organization and is confident that with these changes come new and positive opportunities. Among the things we will be undertaking in the next few months to advance our mission include:

ROCK CLIMBING

Important Notice / Rock Climbing

We regret to inform our members that the Pittsburgh Council is no longer able to sponsor any rock climbing activities for insurance reasons. Our liability insurance is provided through the National AYH organization. After lengthy discussions with National's insurance carrier, we have been notified that a number of activities classified as "high risk" have been excluded from our coverage effective 1 April. While National was successful in negotiating the removal of several activities (such as ice-skating and cross country skiing) from the initial list of exclusions, they were ultimately unsuccessful in being able to have rock climbing covered. While we are disappointed with this exclusion, we have no choice but to stop sponsoring all rock climbing activities. Thank you to all of the volunteers who assisted in the organization and operation of the rock climbing activity over the years. It would not have been possible without you. Discussions are underway with other activities organizations that may be able to sponsor rock climbing activities. For more information, please contact Chuck Jones at charlzjonz@excite.com or (412)766-4036 or Annie Jones at (412) 303-1793. Please call before 10 o'clock at night. <http://www.wpfi.org/>

While it is unfortunate that we will no longer be able to sponsor rock climbing, we would like to remind both members and non-members of the great activities that we sponsor, and encourage everyone's continued participation.

Baker Trail and Rachel Carson Trail Trail Maintenance Opportunities for 2003

The Pittsburgh Council, American Youth Hostels, conceived and built the Baker Trail in the late 1940's and dedicated the Trail in 1950. It was built by returning war veterans who envisioned a network of "youth hostels" along the Trail where the youth of the world could find safe, inexpensive shelter while touring rural America on foot. Today the Trail is 141 miles long and extends from Freeport, PA to the Allegheny National Forest, and traverses Cook Forest State Park, several State Game Lands, Kittanning State Forest, the Mahoning and Crooked Creek Army Corps of Engineers projects, and several local recreation facilities. All AYH members are asked to spend one day a year helping us maintain the Trail. The Baker Trail is 100% volunteer-supported. We use no Federal, State, or Local government funding.

Adopt-a-Trail Volunteers needed. We also need volunteers to become trail stewards who are willing to adopt a 3-5 mile long section of the Baker Trail. Trail stewards will be independently responsible to work on their section of the trail on their own schedule. Responsibilities include painting yellow blazes on the trail once a year, picking up debris and trash off the treadway, and trimming vegetation away from blazes. Optional skills include chain saw work, shelter repair (we have 10 overnight shelters on the trail that require yearly maintenance—adopt a shelter as your own personal project) and/or you can build bridges, sidehill supports, benches, and other trail amenities. Regardless of the level of your effort, you would be expected to walk your trail section twice a year, preferably once in the spring (April, May) and once in the fall (September, October). All expenses for supplies-paint, brushes, etc.-are reimbursed.

"Mudapalooza '03"

The 2003 Rachel Carson Trail Challenge

It was a rainy, cool spring in Pittsburgh this year and the summer solstice was no exception. It rained periodically the week leading up to the Challenge, including Challenge eve and Challenge day, which made some streams swell considerably and turned them from mere trickles to knee-deep torrents. It also turned much of the first half of the trail into a slippery, muddy mess that made the trek either hilarious or harrowing, depending on your perspective. A few Challengers experienced injuries due to the conditions; one had to drop out after about 3.5 miles because of a twisted ankle. Others took advantage of the conditions for fun, subjecting their buddies to a push in the mud for a mud bath.

The crossing of Deer Creek in Emmerling Park proved to be the most daunting. In May, Don Erdeljac, the Challenge Field Director, placed large rocks in the creek as stepping stones, but the rain kept coming and these were regularly submerged. The day before the Challenge, Indiana Township manager Dan Anderson's crew fashioned a makeshift bridge by stringing wooden pallets together with a rope. This effort, too, was thwarted as it rained that night and swelled the creek even more. The pallets were in total disarray with most completely submerged, and the rope stretched and strained from the force of the water. Dan assures us the bridge the Township wanted to have installed before this Challenge will be installed before the next one!

The slick conditions made it more difficult to ascend some hills. Several Challengers reported they'd get partway up Log Cabin Hill (just beyond Checkpoint 2) and start sliding back down! Challenge veteran Barb Peterson reports she had one friend pulling her and another pushing her at one point.

The weather was very similar to the 2001 Challenge, and a striking contrast from last year. Last year was dry, sunny and hot -- it reached 90 degrees. This year was wet, overcast and cool -- it only reached 65 degrees. The cool conditions compensated for the trail conditions and allowed many people to finish, and some to set record times.

We had 395 people head out on the trail this year and 254, or just over 64%, finished. About 60%, or 236, finished within the allotted time of 15 hours 4 minutes.

Our volunteers did another great job this year! Sheet Sleeping Sack
DON'T LEAVE HOME WITHOUT ONE!

Required in all hostels, the sleeping sack serves as your top & bottom sheets, with a built-in pillowcase. Regular sleeping bags are not allowed at hostels due to public health regulations. Our nylon sleep sack is especially light, compact, and dries extremely quickly (handy on trips). The cotton/polyester sleep sack is a little heavier and bulkier, but feels just like your bedsheets. Order one today! See the order form on the back page for prices.

Pittsburgh Council, HI-USA is a United Way Donor Option organization. Our Donor Option number is: **436**.
